She made the participants comfortable and informing about the basic functions of library management include overseeing all library operations, managing the library budget, planning and negotiating the acquisition of materials, interlibrary loan requests, stacks maintenance, overseeing fee collection, event planning, fundraising, and human resources.

She informed the participants that library software is designed to manage all the functions of a library. It helps librarian to maintain the database of new books and the books that are borrowed by members along with their due dates. This system completely automates all libraries' activities.

In second Session Mrs. Varsha B Patil gave them information about how to use Library Software for issuing books to students, Faculty Members. Further, the Speaker gave them hands-on training on how to use Library software for generating database for new books, Journals, Research Paper articles, Students data entry, formatting and report generation. The narrator also gave few suggestions on how to have regular backup and save daily library work in case of system crash or any other technical failure.

All the participants enthusiastically worked on the assigned task throughout the workshop. They were very much involved in learning and trying out the features and got their doubts clarified. The workshop came to an end at 5.00 p.m, with a positive feedback from all the participants. This collaborative effort brought together approximately 21 participants, consisting of library and administrative staff as well as faculty and students. Miss. Vaishali Gode proposed the vote of thanks.

Learning Outcome:

By the end of programme :

- Participants got to know a lot about Library Software and how to use Library Software.
